ABOUT ME

PROFESSIONALS OBJECTIVES

I'm an ambitious and determined student aiming to excel in the fields of Management, Civil, and Environmental Engineering. My interest in these disciplines stems from my passion for the practical application of engineering principles to the effective management of resources, the design and construction of sustainable infrastructures, and environmental conservation.

Throughout my academic journey at the Archimede Technical Institute, I have developed a solid foundation of knowledge in computer science and systems analysis. I am convinced that these technical skills can be integrated with the engineering aspects of management, civil, and environmental disciplines to address the complex challenges of the modern world.

I actively seek opportunities to expand my knowledge and skills in these areas, both through university education and practical experiences in the professional world. I am motivated to contribute to social and environmental progress by applying my knowledge and skills to develop sustainable and innovative solutions for the challenges we face in the surrounding environment and society at large.

SKILLS

Advanced proficiency in the Microsoft Office suite.

Moderate proficiency in programming languages, including Java, Python, C++, Javascript, and PHP.

Intermediate proficiency in the English language, acquired through the school curriculum.

EDUCATION AND TRAINING

High School Diploma

ISTITUTO TECNICO ARCHIMEDE [16/09/2023 – 08/06/2024]

City: Catania | Country: Italy

LANGUAGE SKILLS

Mother tongue(s): Italian

Other language(s):

English

LISTENING B1 **READING** B2 **WRITING** B2
